Re: Final Notice of Intellectual Property Infringement

Dear Mr. Lopez:

I am writing, on behalf of Open Studios, Inc., to demand that Boulder Metalsmithing Association immediately remove all references to "Open Studio" from its website because use of that name for any program infringes Open Studios' intellectual property. Open Studios has made several attempts to resolve this situation amicably to no avail. Since you did not even respond to my May 20, 2016 proposal, Boulder Metalsmithing Association has run out of time. Your client has until 5pm on Friday, July 29, 2016 to discontinue the use of the name "Open Studio" or any name similar to "Open Studios" in connection with membership to Boulder Metalsmithing Association and with art classes and in any other way adverse to Open Studios' ownership interest in this name.

If Boulder Metalsmithing Association fails to meet this deadline, Open Studios will be filing suit against Boulder Metalsmithing Association next week. I am enclosing a copy of the Complaint that my office will file if Boulder Metalsmithing Association misses the deadline. As you will see, Open Studios will seek both injunctive relief and damages.

If there is anything in this letter that is unclear to you, please feel free to contact me.

Sincerely,

HOWARD O. BERNSTEIN, P.C.
